

Reach your saving goals with a **TFSA**

Hi, I'm Ella.
With a Tax-Free Savings Account (TFSA), you don't pay tax on investment growth, or when you take your money out.

How will your **TFSA** work for future you?

1. Save for a sunny (or rainy) day
2. Build retirement income
3. Invest in education

This year's TFSA contribution limit is \$6,000¹. With a TFSA, you get the flexibility to withdraw money when you need it, tax-free.

We have a number of features to help you track your contributions and stay within your personal limit². To update your contribution limit, sign in to mysunlife.ca, select **my financial centre > Requests > Tax slips & Contribution Info > Contribution Limits**.

¹ To find your TFSA limit, consult your Canada Revenue Agency (CRA) My Account.

² You share your TFSA limit between all TFSAs you contribute to. Since we are not aware of any TFSAs you might have outside of your workplace plan, you're responsible for ensuring you don't over-contribute.

Visit mysunlife.ca.

Download the **my Sun Life mobile app** from your Apple App Store or Google Play.
