# PRODUCT DETAILS

- The death benefit is payable on the death of the first insured person at which time the policy terminates.

- **Survivor benefit** – After one of the insured persons dies, the surviving insured person has 90 days to apply for a new life insurance policy without providing new evidence of insurability.

- The amount of the new life insurance policy can't exceed the joint first-to-die insurance amount.
- The new insurance policy can be permanent or term insurance, subject to availability, and is based on the surviving insured person's age nearest, and the rates in effect at the time of application.
- The surviving insured person must be under age nearest 75.
- If premiums were being waived on the joint first-to-die policy for the survivor as a result of a total disability, premiums for the new policy are waived while the disability continues.

- **Automatic survivor benefit** – If the surviving insured person dies within 90 days of the first insured person, is under age nearest 75, and didn't apply for a new policy under the Survivor benefit above, we pay an additional amount equal to the basic insurance amount.

- **Joint last-to-die – premiums to second death**

- Coverage is based on two insured persons.
- The death benefit is payable on the death of the second insured person.
- Premiums continue to be payable after the first insured person's death, if applicable.

---

**TIP!** 20 pay is an ideal solution for grandparents looking to provide an insurance policy to their grandchildren as a foundation for their financial futures.

## Issue ages

Issue ages are based on the insured person's insurance age, or their age at the nearest birthday. This is known as age nearest. For example, if the Client is 48 years and 7 months, their insurance age is 49. On the other hand, if the Client is 35 years and 3 months, their insurance age is 35. An attained age is the insurance age plus the number of years from the effective date of the policy to the nearest policy anniversary.

Sun Permanent Life is available to insured persons from insurance age 0 - 85 for single life coverages depending on the premium option selected.

For joint coverage, we calculate a joint age at the time the insurance takes effect. The joint age represents the combination of each insured person's insurance age, sex and smoking status. Joint ages will differ by coverage type. For example, a joint last-to-die coverage will have a different joint age than a joint first-to-die coverage.

Sun Permanent Life is available to joint persons insured, insurance age 18 - 85 depending on the premium option selected. Both of the insured persons under the joint coverage must be within these ages:

Premium option	Single life	Joint life
Life pay	0-85	18 - 85
10 pay	0-85	18 - 85
15 pay	0-85	18 - 85
20 pay	0-80	18 - 80

**TIP!** Sun Permanent Life allows backdating to retain age. In most cases we'll allow Clients whose insurance age has changed within the past 90 days, to date the policy to the day before that age changed. Premiums charged are for the age of the Client prior to the age change. All back premiums must be paid. Clients aren't allowed to backdate for product eligibility, premium options or optional benefits.

## Issue limits and rate bands

The minimum coverage amount for a Sun Permanent Life policy varies by issue age and coverage option.

- **Single life plans**

- \$25,000 for ages 0 - 64
- \$10,000 for ages 65 - 85

- **Joint plans**

- \$25,000 for all ages

The maximum coverage amount for both single and joint plans is \$10,000,000. Special quotes may be available for coverage amounts greater than \$10,000,000.

The premium rate charged varies by the face amount band. Volume discounts permit reductions in the premium rate as the insurance amount increases. The rate bands for Sun Permanent Life are as follows:

<b>Band 1</b>	\$10,000 - \$49,999
<b>Band 2</b>	\$50,000 - \$99,999
<b>Band 3</b>	\$100,000 - \$249,999
<b>Band 4</b>	\$250,000 - \$499,999
<b>Band 5</b>	\$500,000 - \$999,999
<b>Band 6</b>	\$1,000,000 +

**DID YOU KNOW?** *Decreasing the coverage amount after issue may cause a move to a lower band with higher rates. The premium applicable to the new band applies.*

---

## Premiums

Premiums for Sun Permanent Life are level and guaranteed for the payment period chosen. Clients can make monthly payments with a pre-authorized cheque (PAC) or they can be billed annually. To calculate the monthly premium, the annual premium is multiplied by 0.09. A policy fee is included in the premium for all Sun Permanent Life policies. Policy fees are: \$2.25 per month, or \$25 per year.

## Smoking status

Sun Permanent Life is based on three rate classes: smoker, non-smoker and juvenile. Insured persons who are age nearest 17 - 85 are classified as either smoker or non-smoker. Insured persons, age nearest 0 - 16, are classified as juveniles and will receive a juvenile rate.

## Changes to smoking status

An insured person can change from smoker to non-smoker class by completing a Declaration of smoking status form, E18. Evidence of insurability is required and must be approved by Sun Life before non-smoker rates are applied. The premium will be lower under a non-smoker classification.

Juveniles can change from a juvenile rate to a non-smoker rate with the Life pay premium option only. Juveniles, issue age 0 - 16, with a limited pay premium option can't apply for non-smoker rates. They'll receive juvenile rates until the end of the premium payment period.

For juveniles to change to a non-smoker rate, the policy owner must send a non-smoker declaration, signed by the insured person, to Sun Life any time between the policy anniversary nearest the insured person's 17th and 19th birthdays. At the policy anniversary nearest the insured person's 18th birthday, we'll use non-smoker rates if we receive the non-smoker declaration.

If a declaration isn't received, the insured person is automatically classified as a smoker and is charged smoker rates starting from the policy anniversary nearest their 18th birthday.

If the declaration is received after the policy anniversary nearest the 19th birthday, new evidence of insurability is required.

## Death benefit

All Sun Permanent Life policies provide a guaranteed level death benefit that's paid to the beneficiary upon the death of the insured person.

## Guaranteed cash values

Guaranteed cash values are included on all Sun Permanent Life policies. They begin as early as policy year three and are included in the cash surrender value. The guaranteed cash values aren't included with the death benefit.

## Withdrawable premium fund (WPF)

The WPF provides Clients with the opportunity to prepay premiums on their Sun Permanent Life policy. Any payment received over and above the required premium is deposited into the WPF.

- The balance in the WPF earns interest based on short-term interest rates as determined by Sun Life.
- Interest earned is fully taxable.
- Any outstanding premiums are automatically paid from the value in the WPF. If there isn't enough value in the WPF, an automatic premium loan is applied to pay the balance.
- Clients can withdraw money from the WPF at any time subject to minimums based on our current administrative practices.
- The maximum balance in the WPF is set by us and can change over time.

**DID YOU KNOW?** *Any interest earned on funds within the WPF is taxable.*

## Policy loans

Sun Permanent Life allows Clients to borrow against their guaranteed cash values through a policy loan.

- The minimum loan amount is \$250.
- The maximum loan amount is the guaranteed cash value, less one year's interest, less any existing loans.
- The loan interest rate isn't guaranteed and can be changed at any time.
- If the accumulated loan amount is greater than the net cash value, the policy lapses in 31 days unless a loan payment is received.
- Policy loans can be repaid at any time.
- Any outstanding loan balance is deducted from the cash surrender value if the policy is surrendered.
- Any outstanding loan balance is deducted from the death benefit upon death of the insured person(s).

**DID YOU KNOW?** *Policy loans allow policy owners to borrow against the guaranteed cash values without surrendering their policy. This is a great way to access the cash value in emergencies without surrendering the policy.*

---

## Non-forfeiture options

Sun Permanent Life offers two non-forfeiture options: automatic premium loan and reduced paid-up.

- **Automatic premium loan (APL)**

- An automatic premium loan is initiated by Sun Life to pay any outstanding premiums 45 days after the premium is due.
- The loan interest rate isn't guaranteed and can be changed at any time.
- If the accumulated loan amount is greater than the net cash value, the policy lapses 31 days later unless a loan payment is received.
- Automatic premium loans can be repaid at any time.
- Any outstanding loan balance is deducted from the cash surrender value if the policy is surrendered.
- Any outstanding loan balance is deducted from the death benefit upon death of the insured person(s).

- **Reduced paid-up**

- A policy owner may elect reduced paid-up if they can no longer afford their premiums.
- The policy becomes paid-up with a reduced death benefit.
- It must be requested by the policy owner.
- It can be requested 8 years after the policy issue date.
- All optional benefits under the policy end once the policy becomes reduced paid-up.
- Money can no longer be deposited into the withdrawable premium fund.

## Living benefit

This benefit is offered on Sun Life Assurance Company of Canada life insurance products and is a non-contractual arrangement that we may approve at our discretion on a case-by-case basis. If an insured person is diagnosed with a terminal illness, an application can be made by the policy owner for a lump sum advance of 50% of the death benefit, to a maximum of \$250,000. The lump sum, plus interest, is deducted from the death benefit when paid. This benefit follows the rules of the living benefit program in effect when the policy owner applies to receive the benefit.

**TIP!** *Any living benefit payable will reduce the amount payable at death. Consider a critical illness insurance policy to help cover those financial needs that occur while the Client is living. This will help ensure that the full death benefit provided by the Client's life insurance policy will be used as intended when the policy was purchased.*

---

# OPTIONAL BENEFITS

Sun Permanent Life offers a variety of optional benefits allowing Clients to customize their own protection solution.

# POLICY LAPSE AND REINSTATEMENT

A Sun Permanent Life policy lapses if premiums due are greater than the net cash value, or if the policy loan balance is greater than the guaranteed cash value. When a policy is in a lapse situation, we'll send the policy owner a notice to pay the outstanding amount within a grace period of 31 days. During the 31 day grace period the Client's policy remains in force. After the 31 day grace period the policy lapses.

In the event of a lapse, the Client can apply to reinstate the policy within two years of termination, subject to new evidence of insurability. The policy owner also needs to repay:

- all the outstanding premiums, plus interest from the date of lapse to the date of reinstatement, and
- if applicable, make a loan payment that is determined by Sun Life. This amount won't exceed the loan balance on the day the policy lapsed, plus interest from the date of lapse to the date of reinstatement.

Additional rules apply for reinstatement while disabled. Please refer to the policy.
