

Sun Life Financial illustrations – Eos 7.2

New features and enhancements

Illustrate Sun CII until October 9, 2017

After installing Eos 7.2 and until October 9, 2017, you can continue to illustrate Sun Critical Illness Insurance (CII).

Effective October 10, 2017, you'll no longer see Sun CII in Eos and you'll need to use Sun Life Illustrations to illustrate this product. If you'd like to access an illustration you've created for Sun CII, you'll need to save it prior to October 10, 2017. With the illustration open, click the **Report Preview** button, then either print it or save it to a location on your PC's hard drive.
