## How adult day care programs work

Adult day programs are designed for dependent adults/seniors, physically located in the community, to provide a safe group setting during the day when family members are not available to care for them. These centres are usually open daily, Monday through Friday (some on Saturday as well). They provide a secure, caring and positive setting for those who are experiencing memory loss, communication disorders, social isolation or physical disabilities. Nutritious lunch meals are provided which usually accommodate any special diet, along with an afternoon snack. Participants need to be mobile, with the possible assistance of a cane, walker or wheelchair. Adult day programs can be public or private, non-profit or for-profit.
